SUMMARY

I am a web developer with a bachelor's degree in Computer Science. Utilizing my education and passions for video editing and graphic design, I bring strong problem-solving skills and a creative approach to designing polished, user-friendly web applications.

SKILLS

- Version Control: **Github**, **Git-bash**, **VS Code**, **Wix**
- Front-End Technologies: **HTML5**, **CSS3**, **React**, **Angular**, **Tailwind**, **Framer Motion**
- Programming Languages: **JavaScript**, **TypeScript**
- Back-End Technologies: **Node.js**, **Express.js**, **API**, **SQL**, **MongoDB**

PROJECTS

FluxCove - [Website](#) | [Github Front End](#) | [Github Back End](#) | [Demo](#)
A full-stack ecommerce shoe store

- Developed a responsive and engaging online shopping platform with **React**, **Tailwind** and **ExpressJS** for seamless navigation and a visually appealing user experience.
- Integrated **MongoDB** with full CRUD operations to effectively handle customer data and product inventory, ensuring secure and scalable data management.
- Implemented **Framer Motion** for smooth animation and configured **Stripe** payment processing for secure transactions.

AllPro - [Website](#) | [Github](#)
A front end application for a computer repair company

- Built a mobile-responsive website using **Angular**, **TypeScript**, and **Tailwind**, ensuring seamless user experience across devices.
- Implemented dynamic components and services to enhance functionality and user interactivity.
- Deployed the application to **Vercel** for streamlined hosting and continuous deployment.

EDUCATION AND CERTIFICATION

Rutgers Full-Stack Coding Bootcamp - Certificate | Online
Bachelor of Science in Computer Science - The University of Technology, Jamaica

- Relevant Coursework: **Data Structures**, **Database Management**, **Artificial Intelligence**
- Languages Learned: **C**, **C++**, **Java**, **Python**, **SQL**
